Muzammil Akber Full Stack Developer

Multan muzammilraza365@gmail.com 03020743378 LinkedIn Portfolio

Summary

Results-driven Full Stack Developer delivering robust, scalable web solutions using modern technologies. Known for writing clean, efficient code with a strong focus on performance, security, and maintainability. Passionate about building seamless, user-centric experiences and continuously adopting best practices to deliver high-quality software.

Technical Skills

JavaScript (ES6+), TypeScript, React.js, Next.js, Vue.js, PWA, Node.js, Express.js, REST APIs, GraphQL, API Integration Redux, Zustand, Pinia, TanStack Query, MongoDB, PostgreSQL, Prisma, n8n (Automation), Zoho CRM, HubSpot & Zendesk Integration, Tailwind, SCSS, Responsive Design,Git, GitHub, Postman

Professional Experience

Full Stack Developer *Multan, PK*

3li global *April 2025 – Present*

- Working on a React.js + Node.js enterprise application integrated with Zoho CRM, including direct API-based data handling and business workflow implementation.
- Led development for KSA and USA projects, collaborating directly with clients for requirement gathering, meetings, and solution delivery.
- Built and managed CI/CD pipelines using Azure and GitHub Actions, improving deployment reliability and delivery speed.
- Developed and automated business processes using n8n, including workflow automation, data migration, and third-party system integrations.
- Designed and managed end-to-end system architecture including frontend, backend, and CRM integration, ensuring scalable and reliable application performance.

Full Stack Developer *Multan, PK*

Fitwell Hub *Jun 2024 – Feb2025*

- Led frontend development of a large-scale healthcare platform built with Next.js and Node.js, supporting millions of users across 5+ major cities.
- Architected and delivered a role-based enterprise system, ensuring seamless data flow and integration across multiple healthcare modules.
- Managed and mentored a team of 3 frontend developers, driving code quality, consistency, and timely feature delivery.

Projects

Offline Sales & Field Management System

- Built a React.js + Node.js enterprise sales platform integrated with Zoho CRM, enabling field agents to manage store visits, stock tracking, and daily reporting workflows.
- Designed a role-based system with real-time reporting, approvals, notifications, and manager-level insights across USA & KSA regions.
- Implemented deep Zoho CRM integration using COQL, ensuring seamless data synchronization and centralized business operations.

Automation & CRM Migration (n8n Workflows)

- Developed n8n-based automation workflows to integrate platforms like Northlink and Zendesk, capturing leads and syncing conversation data into CRM systems.
- Executed large-scale CRM data migration from HubSpot to Zendesk, ensuring data integrity and seamless transition of tickets and history.
- Automated cross-platform processes, significantly reducing manual effort and improving operational efficiency.

Fitwell Hub Health Portal

- Contributed to the development of a large-scale virtual healthcare platform serving millions of users across multiple cities, enabling seamless online consultations and healthcare services.
- Played a key role in implementing a multi-role system supporting patients, doctors, pharmacies, hospitals, and laboratories, improving coordination across the healthcare ecosystem.
- Integrated OpenAI APIs to deliver personalized health recommendations, enhancing platform intelligence and user engagement.

Education

MNSUAM

BS in Computer Science (GPA: 3.13/4.0) *Sept 2020 – July 2024*
